SATURDAY, MARCH 12, 1870.

Brave Words from Massachuretts,

The Hon. John Quincy Adams has never spoken more wisely, or more to the point, than at the dinner given by the Constitutional Club in Boston on Washington's birth day. The very name of "Constitutional Club" in that hot-bed of Radicalism is suggestive, and if the purpose of its members be to promote a profounder reverence for that instrument, and to vindicate the rights of the States and the people under it, those who have banded themselves together in the prosecution of this may be. Mr. Adams, in the speech to which we refer, declared emphatically that the Radicals in Congress had grossly abused their powers; that to perpetuate their party they had leagued together to destroy the Constitution. "I mean to say," added Mr. Adams, "and I say it posure by forcing a dissolution of the Comwith a sense of responsibility, that to-day there is nothing of the old Constitution of our fathers left to us except what was al ways understood and believed by them to be a mere incident of constitutional power, and that is this war power."

"The old constatutional edifice of the fa thers was built of the white marble of the States, which they brought together voluntarily as a work of love, and piled un there one by one each in pride and delight, adding stone after stone to the beautiful and symmetrical edifice under which we all live. [Applause.] But what is this thing which we now see there in Washington? Is that built of those stones? Is that put together by any such bands as those which cemented the old Capitol? Why, gentlemen, it is built of the volcanic lava, hot yet from the results of the outpouring of the mount [applause], and it is clamped together by great bands of black, rusted, iron fetters. [Applause.] It's no such edifice at all; and now we have in the Presidential chair a man who. when he swears to protect and defend and preserve the Constitution, seems to think that this is the Constitution which he swears to preserve."

Alluding to a proposition which was made in the Massachusetts Legislature, a few days before, to fire a hundred guns on Boston Common in honor of the passage of the Fifteenth Amendment, Mr. Adams said: "I was only sorry that I was not in the Legislature to propose an amendment to it, that the United States be humbly solicited to allow the State of Massachusetts to fire that salute from Fort Warren, and that the guns might be shotted, in order to show the process by which the amendment had been carried."

Brave words these, and trenchant as they are brave. But, remarks the Balti-Gazette, so long as the people continue to be apathetic, what is there to a successful issue their schemes to estabthat provision of the Fifteenth Amendment which gives to Congress the power fetters for the North, as they have previously done for the South. Whether the people of the North, who recognize it as good constitutional law that the Southern States "may be dragooned into amending the Constitution of the United States,' will put a similar interpretation upon military interference in cases which concern | nals alone flee from justice. themselves, in a question which the future only can answer.

Congressional Corruption A Contrast,

The zeal and haste with which the Radical Governors of North and South Carolina lent their official and to protect their on the rocks to fall upon and hide them corrupt partizans, Deweese and Whitte- from the wrath of those whom they have more, after the detection of their crimes, so grievously wronged. from its proper punishment by expulsion from the House of Representatives, is in striking contrast with the conduct of Govocrat from that State, was accused of having sold his cadetship, and without any proof of the fact having been produced he resigned his seat in Congress in order to to the people of his District. We are not surprised that such carpet-

baggers as French should draw suspicion to himself by the warmth and imprudence with which he seeks to shelter Littlefield from detection. Mr. French prefers the welfare of Littlefield to that of North Carolina. In fact the white-washing of Littlefield is a matter of personal interest to his fellow carpet-baggers. French and Littefield are representative men of this class. Too many of them have falled by the wayside. Deweese, Estes, Foster and others of lesser note have been stranded upon the beach. It would not do for one so conspicuous as Littlefield to be detected. Therefore French naturally would exhaust every expedient to save his friend. What cares he if the State suffers. What cares he if our Railroads are not compleventurers like himself are not forced from
